¹This chart is for illustrative purposes only. The chart assumes a 6.3% annual rate of return and a 3% annual salary increase. Your return may be higher or lower based on the investments selected in your plan. All contributions are assumed made at the end of each year. Your own deposit schedule will depend on your plan specifics.

All investments involve risk, including loss of principal and there is no guarantee of profits. It is unlikely that any investment would have such consistent returns. Investors should carefully consider their objectives, risk tolerance, and time horizon before investing.
