## Using This Guide

The Transamerica Retirement Services (TRS) website, [www.TA-Retirement.com](http://www.TA-Retirement.com), provides TPA firms with access to client information within the TRS recordkeeping system. This guide provides an overview of the functionality, field descriptions, and navigational steps for the Partner /Series Enter Loan section of the website.

## Navigating Through this Guide

Screen captures display a visual graphic of a window to assist in understanding functionality. Additional icons and tables that display throughout the guide consist of the following:

### *Guide Icons*

#### *Online Instructions*

The Online Instructions icon and text displays prior to a Step Action Table containing specific instruction for navigating within the website

#### *Business Rule*

The Business Rule icon and text displays when there are specific Business Rules relevant to a particular process

***Guide Tables***

## **SECTION I: Processing Online Loan Requests**

Loan requests may be submitted by the participant for plans that allow the participant to borrow monies. This request may be submitted either online via the Partner iSeries website or via paper. The format (online or paper) that is selected during plan design will determine how all loan requests will be processed.

Requests submitted online by the participant are referred to as participant-submitted loan requests. Upon submission, the TPA receives email notification of the participant-submitted loan requests for initial approval. The TPA confirms vesting information and available funds and submits the approval to the recordkeeper for processing. The recordkeeper forwards the loan check to the plan sponsor for disbursement to the participant. An email notification of the approval is sent to the participant and copied to the plan sponsor. All email notifications for online requests are automatic.

Participant online loan requests in plans that require spousal consent will be forwarded to the plan sponsor for review of the required spousal signature and notary public witness signature prior to the TPA review.

The loan documents and amortization schedule are generated in PDF format and posted to the participant web site. Hard copies are no longer mailed to the plan sponsor.

If the loan request is denied, an email is sent to the participant and the plan sponsor with an explanation of the denial.

---

### **Accessing Online Loan Requests**

This section of the user guide provides instruction on accessing a participant-submitted loan request.

*Online Instructions*

## Pending Loans

The Pending Loans window displays information regarding a specific participant-submitted loan request and provides the ability to approve and deny the request. TPA Owners, TPA Sr. Administrators and TPA Jr. have the ability to approve or deny loan requests. TPA Administrative Assistants have ready-only access. TPAs are responsible for reviewing the information and providing any additional required information, as needed. All fields are system generated with the exception of the Payment Frequency field.

### Business Rule

Read the following business rules carefully as they apply to the Pending Loans window.

- \* TPA Administrative Assistants have "read-only" access rights. The "Approve Request" and "Deny Request" buttons are disabled in the TPA Administrative Assistant's Pending Loan window.
- \* The "Select Another Plan" link only displays if TPA has more than one plan associated with it
- \* Request information is specific to the selected plan and participant
- \* Accounts displayed under the Vesting panel based on plan provisions. Only money sources permitted in the plan are displayed.
- \* Current Loan(s) panel is suppressed if the participant does not have an active loan. All active loans, the participant currently holds with TRS, display in this panel
- \* The Prior Loan(s) panel displays only if participant has a previous loan that is paid, defaulted or deemed
- \* The maximum loan amount available is calculated by the recordkeeper and does not include assets from those money sources from which loans are not permitted
- \* If the "payment frequency " is changed, the payment amount and number of payments recalculate and displays on the Review window

---

- \* If the payment frequency" is changed to something other than what the participant selected, a message is posted in the participant message center. This message contains the new payment frequency, payment amount and number of payments

## Approve Pending Loans

### Online Instructions

#### Approve Pending Loans

To approve participant-submitted pending loan requests, complete the following steps:

Step	Action
1	Review participant information for accuracy
2	Click <b>Approve Request</b> to advance to the Loans Withdrawal Hierarchy window Click <b>Cancel</b> to return to the Loans and Distribution window

## Pending Loans Withdrawal Hierarchy

The Pending Loan-Withdrawal Hierarchy window provides the TPA with the ability to specify the order in which assets are withdrawn from the participant's account. If the TPA determines that a distribution be made using a withdrawal hierarchy, each money source must be assigned a value indicating the sequence they wish the distribution to follow. For example, the Employer Match money source is assigned a value of 1 and the Profit Sharing money source is assigned a value of 2. Upon processing the distribution request, assets are withdrawn from the Employer Match money source until the requested amount is satisfied or until the money source is

depleted. If the Employer Match money source is depleted prior to fulfilling the request, assets are withdrawn from the Profit Sharing money source.

### *Business Rule*

Read the following business rules carefully as they apply to the specifying a withdrawal hierarchy in the Loan- Withdrawal Hierarchy window

- \* Only money sources allowed for loan distributions and with a balance display
- \* Each money source must have a hierarchical value of 1 to 15 or N/A assigned
- \* More than one money source can have a value of N/A assigned
- \* Money sources can not have the same hierarchical value assigned

### *Online Instructions*

#### **Withdrawal Hierarchy**

To establish withdrawal hierarchy, complete the following steps:

Step	Action
1	Select hierarchy to be applied to this loan. Options are: <ul style="list-style-type: none"><li>• Withdraw the assets from any one fully vested source OR</li><li>• Withdraw the assets in accordance with the hierarchy set below</li></ul>
2	If selecting the <b>"Withdraw the assets in accordance with the hierarchy set forth below"</b> option from the previous step, assign a numerical value or N/A from the drop-down list next to each of the money sources
3	Click <b>Submit</b> to advance to the Pending Loans-Review window OR Click <b>Back</b> to go back to the Pending Loan window Click <b>Cancel</b> to return to the Loans & Distributions window

### Pending Loans - Review

The Pending Loans Review window summarizes the loan information and displays the approval status the TPA entered. The TPA reviews the information for accuracy before confirming the loan.
